### CONNECTING INTELLIGENCE

Since the 2007 financial crisis we have delivered over 850 projects connecting project managers, category experts, and systems that create accountability.

- Proactive strategy and planning.
- Connecting label, type and variable data.
- Tracking cradle to grave process flow.

### SEE WHAT WE HAVE NOW

Our algorithmic magic occurs when we ingest asset, expert, location and time data to drive project efficiency.

OUR TECHNOLOGY

The EDGE technology platform and CAMP mobile app connect your Asset inventory, the Experts who understand them, and the Projects where resource accountability is managed.

GAMIFYING MOBILE TECHNOLOGY

- “Asset Snap” equipment image recognition technology.
- Swipe Simply through Experts, Assets and Projects.
- 1-Screen Quick Reports with KPI's and metrics.

CONNECT AND ALIGN CRITICAL RESOURCES

- Monitor your Projects and the Experts doing them.
- Know that Assets and Experts in Projects are aligned.
- Assurance that needed skills, tools and parts are managed.

SIMPLICITY MEANS BETTER UTILIZATION

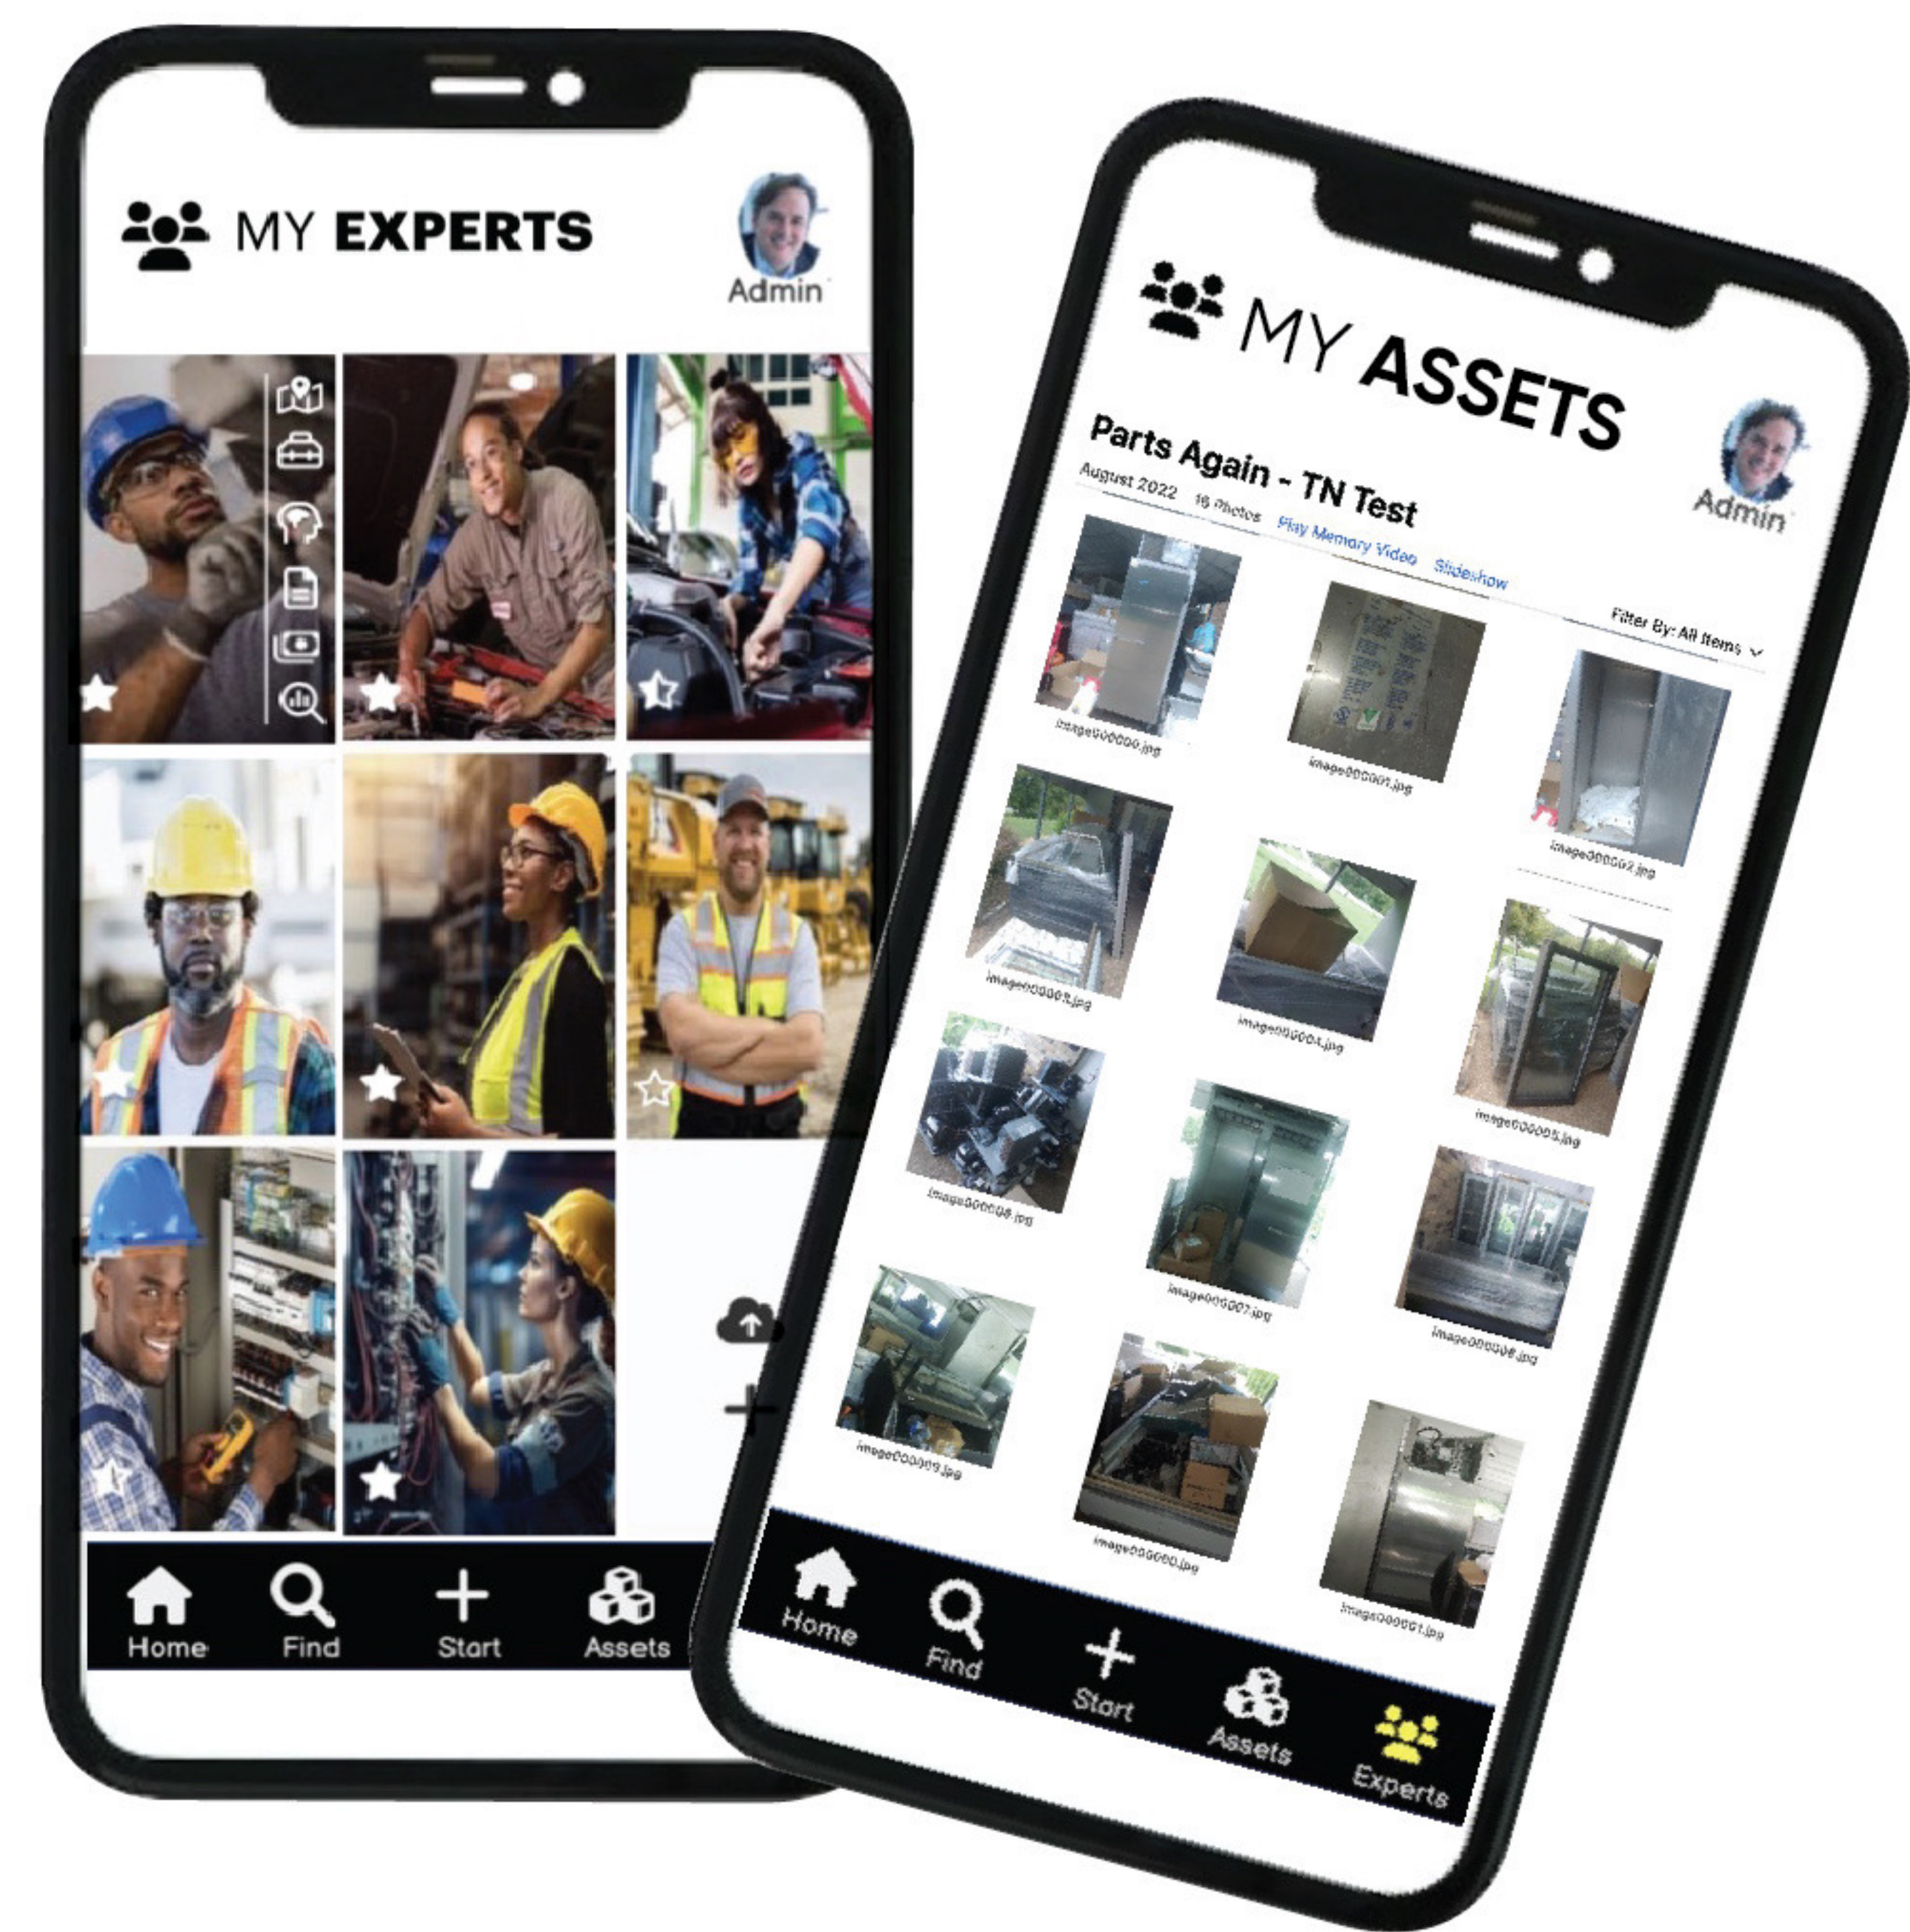

- Keep Experts close to home, near Projects "just in case".
- Match Experts with their "Sweet Spot" Projects.
- Know that ID access and safety protocols are followed.

METRICS AND KPI BEST PRACTICES

- Map Expert specialties, certifications and work locations.
- Track Project utilization occurring and completed.
- Manage Bill of Materials (BOM) fill rate required for projects.
- Index current assets and end-of-life scheduling.

DID YOU KNOW?

- 9% of every \$1.00 is lost on inefficient project management.
- 31% of Projects fail to meet their goals.
- 43% of Projects exceed their budgets.
- 48% of Projects miss their deadlines.
